# Summer 2025 Newsletter

## Children's Healthcare Needs List

Nevada's 2025 Children's Healthcare Needs List is live! As we advocate for more comprehensive healthcare for Nevada's children, we know that one of the biggest roadblocks is the shortage of doctors and other healthcare workers for kids.

This data-driven list is our roadmap for change, and a way to celebrate progress as it happens! Every step forward matters. We would love to hear from providers and promiller groups to make sure your specialty is properly represented on this list.

We plan to update it quarterly, and your input is encouraged at contact@act4kidsnevada.org.

## 2025 Legislative Recap

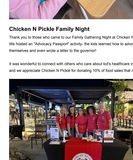
Act4Kids Nevada supported 14 bills through testimony and written support this legislative session.

See the important bills we were following and which ones passed on our blog post! Read our 2025 Legislative Recap here

## Family Filming Project

Check out our latest family story! Lara family has seen dozens of physicians for her children here in Nevada, and has had to travel out of state for much of their healthcare as well. Lara is ready for coordinated and comprehensive healthcare for kids in Nevada!

Watch her story here.



## Family Engagement Night

Thank you to Intermountain Health for hosting an incredible family night- giving us a chance to learn more about the future Nevada Children's Hospital and to share our stories and experiences. Thank you to the architects at Stseely Bullock for taking the time to host an engaging design activity for the kids- it was great to see their ideas included as well!

We are grateful for the work that is being done in bringing more comprehensive healthcare to our state! Check out the kids working hard on their designs:

## Chicken N Pickle Family Night

Thank you to those who came to our Family Gathering Night at Chicken N Pickle! We hosted an "Advocacy Passport" activity- the kids learned how to advocate for themselves and even wrote a letter to the governor!

It was wonderful to connect with others who care about kid's healthcare in Nevada and we appreciate Chicken N Pickle for donating 10% of food sales that night.

## Community Resources and Events

### Online First Aid Course

At-J Patient Advocacy is offering five families the opportunity to take AAP's online first aid course for caregivers at no cost. This course is for individuals who are not healthcare providers or professional rescuers but are caregivers with a duty to provide pediatric first aid and emergency responses. Caregivers include parents, grandparents, guardians, family friends, babysitters, school personnel, assistant leaders, and anyone else working with infants and children.

This course will prepare anyone who cares for children to recognize everyday medical emergencies and care for an injury or illness until professional help arrives. It is comprised of six (6) units, each taking approximately one (1) hour each.

If you would like to take this course at no cost, please complete the form here

Thank you, A+J
